

SECTION 3.015 RESOURCE RELATED INDUSTRIAL ZONE, RRI.

- A. Purpose: It is the intent and purpose of the Resource Related Industrial – (RRI) Zone to be utilized in areas of Morrow County included in zones designated for farm use that have a strong potential for the extraction and processing of agricultural and other resource related commodities. It is further the intent and purpose of the RRI Zone to support commercial farm and forest activities while increasing family wage and above family wage employment opportunities in Morrow County. In an RRI Zone the following regulations shall apply:
- B. Uses Permitted Outright. In the RRI Zone, the following uses and their accessory uses are permitted outright. While some uses may prompt an inquiry to, and/or action by, the Planning Director, authorization of such uses does not require notice to adjacent property owners or other interested parties and does not constitute a land use decision pursuant to ORS 197.015(10).
1. Farm Use. Other than the establishment of new structures, this use does not require zoning permit approval.
 2. Operations for the exploration of geothermal resources as defined by ORS 522.005, including the placement and operation of compressors, separators and other customary production equipment for an individual well adjacent to the wellhead. Any activities or construction relating to such operations shall not be a basis for an exception under ORS 197.732(1)(a) or (b).
 3. The propagation or harvesting of a forest product.
 4. Minor betterment of existing public roads and highway related facilities such as maintenance yards, weight stations and rest areas within the right-of-way existing as of July 1, 1987, and contiguous public-owned property utilized to support the operation and maintenance of public roads and highways.
 5. Fire service facilities providing rural fire protection services.
 6. Mining less than 1,000 cubic yards of aggregate material or excavation of less than one acre of land annually. (MC OR-1-2013)
 7. Excavations conducted by the landowner or tenant on the landowner or tenant's property for the purpose of operations reasonably necessary for construction, reconstruction or maintenance of access roads on the same parcel or on an adjacent parcel that is under the same ownership as the parcel being excavated reasonably necessary for farming. (MC OR-1-2013)
 8. Other uses required by ORS 215.283(1) as interpreted by OAR Chapter 660, Division 33.
- C. Uses Subject to Administrative Review. In the RRI Zone, the following uses and their accessory uses may be permitted outright through the Site Plan Review Process provided in MCZO 5.020, and subject to the provisions of this Section if determined by the Planning Director to satisfy the applicable criteria and provisions of law. Notice and an opportunity to file an appeal must be provided in

the manner described in ORS 215.416. These uses may be referred to the Planning Commission for review if deemed appropriate by the Planning Director.

1. A facility for the primary processing of forest products pursuant to OAR 660-033-0130(6).
2. A facility for the processing of farm crops pursuant to ORS 215.283(1)(u).
3. A commercial activity in conjunction with farm use, including but not limited to uses with an industrial emphasis such as processing hybrid poplar trees into lumber or secondary processing, fabrication or shipping of materials or goods produced at facilities located at the site or surrounding lands. Approval of this use is subject to the review criteria of Subsection D.
4. Operations conducted for the mining and processing of geothermal resources as defined in ORS 522.005 or exploration, mining and processing of aggregate and other mineral resources or other subsurface resources and oil and gas as defined by ORS 520.005 not otherwise permitted under subsection B.2 of this section. Approval of this use is subject to the review criteria of Subsection D.
5. Dwellings pursuant to OAR 660-033-0135(7).
6. Other uses required by ORS 215.283(1) as interpreted by OAR Chapter 660, Division 33.

D. Conditional Uses. In the RRI Zone, the following uses and their accessory uses may be permitted if determined by the Planning Commission during a public hearing to satisfy the applicable criteria and provisions of law. The appropriate review criteria are identified for each use.

1. Operations conducted for the mining, stockpiling, or processing of mineral, aggregate and other mineral and other subsurface resources not to exceed 500,000 tons subject to Article 6 Conditional Uses and provisions within the Comprehensive Plan which requires a significance determination. (MC OR-1-2013)
2. A site for the disposal of solid waste approved by the governing body of a city or county or both and for which a permit has been granted under ORS 459.245 by the Department of Environmental Quality together with equipment, facilities or buildings necessary for its operation. Approval of this use is subject to the standards and criteria of MCZO Section 3.010 Subsection E, and any other applicable criteria or provisions of law.
3. Commercial utility facilities for the purpose of generating power for public use by sale. Approval of this use is subject to the standards and criteria of MCZO Section 3.010 Subsection E, and any other applicable criteria or provisions of law.

4. Operations for the extraction and bottling of water. Approval of this use is subject to the standards and criteria of MCZO Section 3.010 Subsection E, and any other applicable criteria or provisions of law.
 5. Utility facilities necessary for public service subject to the provisions of ORS 215.275 and OAR 660-033-0130(16). No local legislative criteria shall be applied for consideration of establishing a utility facility necessary for public service.
 6. Composting facilities for which a permit has been granted by the Department of Environmental Quality under ORS 459.245 and OAR 340-096-0020. Approval of this use is subject to the review criteria of MCZO Section 3.010 Subsection E, and any other applicable criteria or provisions of law.
 7. The land application of reclaimed water, agricultural process or industrial process water or biosolids for agricultural, horticultural or silvicultural production, or for irrigation in connection with a use allowed in the EFU Zone pursuant to the provisions of ORS 215.283(1)(Y) and ORS 215.246 to 215.251.
- E. Yards. In a RRI Zone, the minimum yard setback requirements shall be as follows:
1. The front yard setback from the property line shall be a minimum of 100 feet if the property line is adjacent to an intensive agricultural use except as approved by the Planning Director; otherwise, front yards shall be 20 feet for property fronting on a local minor collector or marginal access street ROW, 30 feet from a property line fronting on a major collector ROW, and 80 feet from an arterial ROW unless other provisions for combining accesses are provided and approved by the County.
 2. Each side yard shall be a minimum of 20 feet except that on corner lots or parcels the side yard on the street side shall be a minimum of 30 feet, and for parcels or lots with side yards adjacent to an intensive agricultural use the adjacent side yard shall be a minimum of 100 feet, except as approved by the Planning Director.
 3. Rear yards shall be a minimum of 25 feet, except for parcels or lots with rear yards adjacent to an intensive agricultural use rear yards shall be a minimum of 100 feet, except as approved by the Planning Director.
 4. Stream Setback. All sewage disposal installations such as outhouses, septic tank and drainfield systems shall be set back from the high-water line or mark along all streams and lakes a minimum of 100 feet, measured at right angles to the high-water line or mark. All structures, buildings, or similar permanent fixtures shall be set back from the high-water line or mark along all streams or lakes a minimum of 100 feet measured at right angles to the high-water line or mark.

F. Transportation Impacts

1. Traffic Impact Analysis (TIA). In addition to the other standards and conditions set forth in this section, a TIA will be required for all projects generating more than 400 passenger car equivalent trips per day. Heavy vehicles – trucks, recreational vehicles and buses – will be defined as 2.2 passenger car equivalents. A TIA will include: trips generated by the project, trip distribution for the project, identification of intersections for which the project adds 30 or more peak hour passenger car equivalent trips, and level of service assessment, impacts of the project, and, mitigation of the impacts. If the corridor is a State Highway, use ODOT standards. (MC-C-8-98)
